microwave steam steriliser

INSTRUCTIONS FOR USE

Mayborn ANZ Pty Ltd. (ABN 66 154 703 134)
Mayborn Group is a business name of Mayborn ANZ Pty Ltd.

IMPORTANT WARNINGS

Keep this instruction sheet for future reference as it includes important information

- ❗ Always add 200ml of water before use. Ensure the unit does not boil dry.
- ❗ Ensure the microwave timer is set correctly on full power.
- ❗ Always allow at least 5 minutes cooling time before removing from the microwave. It is recommended that oven gloves are used to prevent scalding.
- ❗ When removing the steriliser from the microwave, take care as it will contain hot water and steam. Place on a hard, heat resistant surface.
- ❗ Always open the lid away from you to allow the steam to escape.
- ❗ **Do not use chemical sterilising solutions/tablets in the microwave.**
- ❗ **If you have a combination oven, ensure grill is switched off and the oven has cooled before use.**
- ❗ Do not use metallic items as this will damage your microwave.
- ❗ Keep out of reach of small children.
- ❗ Make sure that the microwave turntable is clean and dry before use.

closer_{to}nature[®] microwave steam steriliser

Before using your steriliser, please ensure that you read these instructions thoroughly. Please read and retain this important information for future reference.

This steriliser is designed for use with Tommee Tippee Closer to Nature bottles and feeding accessories (except bottle brush). The steriliser will hold up to 4 ultra bottles, plus accessories.

Using your Microwave Steam Steriliser

- 1 Before sterilisation, wash all bottles and feeding accessories in warm soapy water or in a dishwasher (top rack only) to remove any milk residues. Separate all components for washing and reassemble teat and screw ring for sterilising.

WARNING: DO NOT ALLOW PRODUCT TO COME INTO CONTACT WITH OIL BASED FOODS (e.g. OIL / TOMATO BASED SAUCES) AS STAINING WILL OCCUR.

Remove the tray and pour 200ml of water into the steriliser base.

Replace the tray.

Place the bottle parts in the locators as shown

Place the lid over the steriliser base. Make sure the sides of the lid are securely fitted over side buttons.

Place the steriliser in the microwave, and microwave on full power according to the table on the right.

WATTAGE	FULL POWER	COOLING TIME
Up to 800w	8 Minutes	5 Minutes
850w - 1000w	6 Minutes	5 Minutes
1100w	4 Minutes	5 Minutes

Allow to cool for at least 5 minutes before removing the steriliser from the microwave. To release the lid press both side buttons.

Wash your hands thoroughly before handling sterilised items. Take care as the items will be hot.

Remove the sterilised items. The teat tongs can be used to remove the small items. The lid when removed and placed flat becomes a hygienic work surface for making up feeds.

If the steriliser is left unopened its contents will remain sterile for up to 24 hours.
